

# 2022 Real Magic Strategy Plan

Your best year happens **RIGHT** now, and in your hands is a great framework that will help prepare you for your upcoming 1:1 Strategy call with our Real Magic Coaching team.

As we head into 2022, this is a good time to stop up and reflect on all the wonderful things that 2021 brought with it. In essence, to harvest the good and forgive ALL the rest. We either grow **BETTER** or **BITTER**. The choice is **ALWAYS** ours to make, and there is always good in everything.

## **REFLECTION**

Let us begin by recognizing the lessons learned in 2021. Being faced with adversity is when we truly grow and expand in awareness. Success isn't as great a teacher as failure is. But we are never really a failure until we stop trying. List 5 lessons learned in 2021:

- 1.
- 2.
- 3.
- 4.
- 5.

Continue here by listing five things that you are really grateful for that manifested in your life this year (people, results, awareness, etc.)

- 1.
- 2.

The essence of you, your spiritual DNA, is always for fuller expression and fuller expansion. List 3 things that you have learned about yourself this year. It could be a new skill you developed, a talent you started using, or it could just be that you became aware of being able to do something you previously didn't know how to do.

Let's dive deeper here! Pick out three major accomplishments that you have achieved this year and describe A: Why that accomplishment is important for you and B: How it shaped the person you are today and C, how you are going to apply it towards 2022:

Accomplishment #1:

Accomplishment #2:

Accomplishment #3:

After reflecting on 2021 and all the good things that have taken place, you should now feel fulfilled with how great this year *HAS* been. Let's understand that you now feel this way, not because of how 2021 actually went, but because you have changed your perception to focus on the good through this exercise. Where focus goes, energy flows.

*"It's not who you are that holds you back, it's the illusions of who you think you're not"*  
- AH

Life and everything in it reflects how you think, feel, act, and choose to see something. Believing is seeing, not the other way around.

Let's continue now on creating an extraordinary 2022 by building a great vision and sticking to it.

### **AFFIRMATION**

Before you begin making decisions for 2022, first remind yourself of the principles below by reading them out loud and affirming to yourself:

- There is an infinite source which I am also connected to
- I'm a spiritual being, gifted with infinite potential
- I create my abundance from an infinite source of supply
- I deserve the things I desire, including my success
- All I seek is available to me and is seeking me

## **2022 STARTS NOW!**

Now that you are aligned with source energy and totally aware of your unlimited power, it is time for us to set some goals for 2022. Your Real Magic coach will help you in gaining clarity on what is most important and how to move past the illusions currently preventing you from creating what it is that you desire. So allow your mind to flow freely, and know we are here to support you every step of the way. You may or may not have goals in each category, but I still encourage you to allow your mind to flow freely.

What is your relationship goal for 2022?

## Your 2022 Real Magic commitment statement

One of the most important lessons that we teach here in the Real Magic universe is the power of decision-making. Nothing takes place without them, and yet we have not been taught how to make them properly. Use the commitment statement below, write it out yourself and read it daily over the next 365 days. You will be amazed at the results!

**"I, \_\_\_\_\_ am fully committed to bringing my highest potential to the surface in my life, and I am aware of the jewels I hold inside me. I choose to intentionally unfold it and experience life in a harmonious and prosperous way. I deserve to become, attain, and enjoy the things my spirit desires; therefore, I allow myself to align with it and to create it. I express gratitude and enthusiasm toward my wishes which are now fulfilled".**
